Sr. No.	Item Name & Description	Picture
1	**Animal Cell Divison, Meiosis** Clearly showing all stages of meiosis cell division in detail, beautifully coloured to show the details of chromosomes, as seen under the microscope.A set of 12 models, very useful for class-room, mounted on board with numbered Key Card. Board Size 50x45cm	
2	**Animal Cell Divison, Meiosis** (On Magnetic Board) Board size 60x40cm	3	**Mitochondria Model**	
4	**Animal cell Divison, Mitosis** A set of 10 small models, enlarged in size showing cell division, different stages, which can be easily identified like, prophase, metaphase, anaphase, telophase and daughter cells.Mounted on board with numbered Key Card. Board Size 56x40cm	
Sr. No.	Item Name & Description	Picture
5	**Animal cell Divison, Mitosis** (On Magnetic Board) Board size 60x40cm	
6	**Animal Cell Model** This model, enlarged about 20,000 times, provides clear depiction of the latest up-to-date information of the delicate and complex structure of the animal cell. For teaching purposes, the components of the cell are very brightly coloured to bring out the high degree of segmentation of a cell.In addition to the organelle like nucleus, endoplasmatic reticulum, mitochondria, ribosomes, polysomes and Golgi apparatus, the model also shows centrioles, lysosomes and fat vacuoles.The presentation of the process of extrusion of a Golgi vesicle and pinocytic signs is shown by the cell dynamics.The	
7	**Animal Cell Model**	
8	**Plant Cell Model**	

Sr. No.	Item Name & Description	Picture
9	**Animal Cell**	
10	**Forms of Bacteria**	
11	**Cockroach Dissected Model** Dissectable Parts	
12	**Ebola Virus**	

Sr. No.	Item Name & Description	Picture
13	**Earthworm Dissection Model**	
14	**Pigeon Dissection Model** Showing general dissection of a pigeon, an enlarged model mounted on board size 400 x 480mm approximately.With numbered Key Card.	
15	**Frog Dissection Model** - Shows the internal organs of a frog with subtitles. - Made of Fiber Glass used in the study area. - Size approx 600 X 450 X 110 mm	
16	**Frog dissection Model** Internal & External Structure on Stand	 

Sr. No.	Item Name & Description	Picture
17	**Hen Dissection Model** Natural size, showing right side, the feathers and the other side showing internal organs. Mounted on base all parts with numbered Key Card.	
18	**Ascaris Dissection (Male & Female)** Dissected model of Ascaris, enlarged, showing all important internal organs of male and female Ascaris in detail.Mounted on a base with numbered Key Card.	
19	**Bilharzia (Male & Female)** A very interesting model showing oral sucker, oesophagus, testis, intestine etc.Mounted on board with numbered Key Card.	20	**Hydra L.S Model** Showing mouth, coelenterons, testis, gland cells, ovum, ovary etc. Mounted on board size 240 x 400mm approximately with numbered Key Card.	
Sr. No.	Item Name & Description	Picture
21	**PARAMECIUM MODEL** - Show internal elements such as potassium Micronucleus parameters. Endo macro nucleus cytoplasm Cecilia. - Located on the base - Size approx 41 X 25 X 9.5 cm	
22	**Modeling amoeba** **(AMOEBA PROTEUS MODEL).** - Shows the appearance of the amoeba. And internal components Foods such as cytoplasmic vacuoles unglued cytoplasm. - Located on the base - Size approx 480 X 310 X 80 mmv	
23	**Model dicotyledon leaves (Dicot Leaf TS)** - Shows the internal structure of dicotyledon leaves cut crosswise. - Size approx 16 x 10 inch	
24	**Model dicotyledon roots (DICOT ROOT TS)** Model dicotyledon roots (DICOT ROOT TS). Size approx 330 X 250 X 65 mm	

Sr. No.	Item Name & Description	Picture
25	**Model dicotyledon stems** Model dicotyledon stems (DICOT STEM) (TS). Size approx 350 X 250 X 65 mm	
26	**Model dicotyledon stems (DICOT STEM).** - Shows the internal arrangement of dicotyledon stem xylem. Four of the MLB, and other components. In the transverse and longitudinal cuts. - Size approx 420 X 130 X 410 mm	
27	**Modeling Euglena (EUGLENA MODEL).** - Internal elements such as Euglena nucleus. Endo Endo ribosomal cytoplasm, chloroplasts and flag posts gel. - Based on a - Size approx 24 X 38 X 2 cm	
28	**Fish Split Model Structure** Fish split model structure (FISH ANATOMY MODEL, PERCH). Component organs of fish Both outside and inside on the plastic base	

Sr. No.	Item Name & Description	Picture
29	**Modeling stomatal cells (LEAF STOMATA).** Shows the components of cells, such as stomatal guard cells. Episode Miss Spider on a plastic base.	
30	**Model leaves monocot T.S** Model monocot plant leaves (Monocot Leaf TS). Characterize the internal structure of the leaves of monocots crosscutting. Size approx 410 X 250 X 65 mm	
31	**Dicot Root Tip Model**	
32	**Model Dicot Root T.S. & L.S.**	
Sr. No.	Item Name & Description	Picture
33	**Model Monocot Root T.S. & L.S.** Size 16 x 12 inch	34	**Leaf Dicot T.S. & L.S** Board Size 12 x 12 inch	
35	**Model monocot plant roots** Model monocot plant roots (MONOCOT ROOT TS). Size approx 330 X 255 X 65 mm	
36	**Model stems of monocots** Model stems of monocots (MONOCOT STEM TS). Size approx 350 X 250 X 65 mm	

Sr. No.	Item Name & Description	Picture
37	**Modeling developmental growth of fungi (MUCOR CUCEDO).** Showing growth And characteristics of fungi Size 30 x 30 cm	
38	**Model (SPIROGYRA CELL MODEL)** Model algal cells (SPIROGYRA CELL MODEL) Board Sizer 40 x 15 cm	
39	**Model structure for 2** Model structure for (STRUCTRAL MODEL OF LEAF). - I live outside the structure. And the inside of the leaves Including stem xylem Flo Show MLB and other components. - Located on a plastic base - Size approx 150 X 290 X 300 mm	
40	**TYPICAL DICOT FLOWER MODEL** - Composition of the flower include pistels, sepals, petals,. Gray created male and female pollen. Clearly shows including pollination. - Located on base	

Sr. No.	Item Name & Description	Picture
41	**Flower structure model** Flower structure model (Typical Flower LS). - Shows the appearance of the flower of perfect form. Sepals, stamens, pistil and reproductive structures. Of flowers - Size approx. 330 X 250 X 60 mm	
42	**Typical Flower LS Model**	
43	**Types of Ovules Model** Board Size 50x45 cm	44	**Volcano Model**
